Dave Harrison has been an exhibitor at Craft Fairs for many years. First with local Craft Organizers then with firms like Rainbow Crafts and H D Events

Dave is a Craftsman, working in carved leather and has done so for 40 years so it was a natural progression to go into the organizing of craft events. He will continue to pass on his knowledge to Serena and assist in the running of the marquee.

All Dave's Hand / Shoulder bags are of his own designs. That means the developing of carving techniques for the picture to be displayed on the leather and the development of the colouring to get the shading on the animal correct.

A lot of Dave's work is to commission, with customers sending photographs of their pets to be carved onto the bag of their choice. This is where the development comes into the equation.

All the leather is cut from the hide to get the best piece for the job to be done, this means that the strength of the leather required is paramount to making the ultimate product. Any off cuts are used—if possible—for the making of the small goods offered for sale. This reduces the waste and helps to keep prices of the small goods down to reasonable levels.
